In addition to outlining the financial, physical, mental, and emotional factors associated with caregiving, the UCLA Center for Health Policy Research is accepting proposals to present one-hour webinars at its monthly virtual learning sessions. Presenters share their lived experience and their work in the field of complex care. Proposals are due quarterly.

National Health Law Program has sent comment to the Department of Homeland Security following its publication of an “advance notice of proposed rulemaking” regarding the public charge rule. Public charge regulations may be cited to deny admission to the United States to individuals who would be dependent on certain public services.

The National Center for Complex Health and Social Needs is accepting proposals to present one-hour webinars at its monthly virtual learning sessions. Presenters share their lived experience and their work in the field of complex care. Proposals are due quarterly.

COVID-19 Information

On November 30, disability rights advocates released a white paper discussing the administration’s proposed rule to adjust the public charge rule in a way that would make it easier to deny绿卡 to immigrants who receive public assistance.

This call will introduce an antiracism toolkit in the form of a website and other materials and resources that the Families United project has assembled to be used by affiliates, states, community-based organizations, and families. The Families United project has assembled to be used by affiliates, states, community-based organizations, and families. The toolkit will be a central resource to support antiracism work in the health care community.

This call will introduce findings about these effects and provide a concrete way for health care providers to begin addressing them.

Institute for Patient- and Family-Centered Care (IPFCC)

Institute for Patient- and Family-Centered Care (IPFCC) is accepting proposals to present one-hour webinars at its monthly virtual learning sessions. Presenters share their lived experience and their work in the field of complex care. Proposals are due quarterly.

This workshop series will explore the challenges and opportunities for creating an optimal care system for people with intellectual and developmental disabilities. The workshop will focus on how the System of Care (SoC) model can be used to create a care system that is person-centered and family-driven.

In the fourth session of this 10-part pediatric complex care series, clinicians and parents will discuss how care providers and families can work together to support emotional health. The session will cover the physical, emotional, and social challenges that children and families face.

This call will introduce an antiracism toolkit in the form of a website and other materials and resources that the Families United project has assembled to be used by affiliates, states, community-based organizations, and families.
