

Grants Awarded November 11, 2014

Grantee: UCLA Center for Health Policy Research

Primary Investigator: Daphna Gans, PhD

Grant Title: *Self-Management Support Needs and Experience of Families with CSHCN*

Grant Amount: \$267,862

Duration: 15 months

Summary: To quantify the caregiving burden experienced by families of children with chronic and complex health problems, identify the gaps between the supports that families need and those that they are receiving, and assess the capacity of health care providers to increase the supports they could provide to families.

Grantee: Children Now

Primary Investigator: Kelly Hardy

Grant Title: *Creating an Advocacy Plan for CSHCN In California*

Grant Amount: \$60,000

Duration: 6 months

Summary: To develop three strategic action plans to address policies that affect the health of CSHCN by: coordinating physical and behavioral health services; promoting involvement of families and youth in state health care planning; and facilitating collaboration among public agencies providing health care, public health, education and social services.
